Home Work

Since the invasion of Holland and Belgium, members of the senate committee handling army and navy affairs have taken to holding off-the-record evening meetings in each other's homes to brush up on the facts about Uncle Sam's defenses, with high United States military experts invited in as "teachers." The speed with which the senate has acted on national defense measures is taken as evidence that the senators are apt pupils and learn fast.

So Wifie is at it Again, Eh?

Arriving unexpectedly, Anthony (Ronald Colman) discovers that his roam-ancing wife (Anna Lee) has found a new fascination in the person of Paco (Gilbert Roland) of the pampas. Bliss (Charles Winninger) seems apparently to find greater interest in the racing dope sheet than in his beautiful daughter's amour. Scene from the RKO Radio comedy hit, "My Life With Caroline," which is now playing at the Daly City theatre.

Tea Hag

Fred Kral, 70 years old, is "tea shy and embarrassed," according to his 64-year-old bride of Cleveland. So, Mrs. Kral freely admits, she not only did the proposing, but also reversed the usual process by bestowing a kiss on the blushing bridegroom at the end of the ceremony.

Mrs. L. Marais of Cyferkuil, Western Transvaal, picked up a piece of firewood while lighting her kitchen fire and found to her horror that she had seized a deadly night adder. With great presence of mind, the housewife struck it against the floor and battered it to death.

Dog Stays On

Frank Bruscwitz has retired as station agent for the Great Northern railroad here but his faithful dog, Terry, carries on. Terry reaches the station every morning at 7:30 o'clock, meets all passenger trains and then trots to the post office and bank—a routine he followed with his master for years.

Pays Debt

L. B. Evans, a farmer of Alberta, Canada., pays his debts even if they are 15 years old. He sent a check for $80 to the city of Los Angeles for his hospital bill in 1926, at the pest house. The city wrote back that the treatments were free, but Evans refused to take back the money.

Book Wear and Tear

V. J. McHenry, who annually supervises the renewing of the 3,000 library books at the University of California, reports that it is always the first 20 pages of a book that suffer the greatest damage due to the efforts of students to concentrate on them. The middle and the end rarely ever have to be renewed.

More Space

If there is too little wall space to arrange furniture attractively, a door which is not absolutely essential could be permanently locked and covered with an appropriate wall hanging. Or if the room is to be repapered, the door might be blocked in with a plywood panel and papered.

Horse Rider Guilty

It isn't always necessary to have 90 horsepower under the hood to drive in a reckless manner. A Boulder man had only a one horsepower vehicle under him when he drew such a charge. Riding a horse, he was accused of behaving so recklessly that two girls, walking in the road, were injured.

PRESIDENT ROOSEVELT SAID: "A review this morning leads me to the conclusion that at present we shall not have to curtail the normal articles of food. There is enough food for all of us and enough left over to send to those who are fighting on the same side with us."

HOW TO BRIGHTEN YOUR Christmas
These have delighted the folks, little and big, for years. Try them dressed up this way.

POPCORN BALLS
An old-time delight but give them a 1941 look with cellophane jackets so they'll look like ornaments, fruits—apples, pears, cherries—or your pet pussy cat.

STICK CANDY & APPLES
Put these old, old favorites together with bows for a stunning but edible Christmas tree decoration, or use them in a row for a mantel decoration.

PLUM PUDDINGS
No fuss or feathers in this day and age—just call for delicious, never-fail canned plum or fig puddings. With a holly and candied cherry garnish and festive hard sauce that home-made look will be achieved.

CIDER & SWEET BISCUITS!
That's really going way, way back for an idea. Hot mulled cider (heat cider with stick cinnamon and whole cloves), shortbread or butter wafers. For callers or bedtime snacks—or any time.

Live by Fishing

Eskimos in Greenland now make a living through fishing, whaling, sealing or hunting.

British Possession

New South Wales became a British possession in 1788.

An Old Custom

The custom of women dyeing their hair and tinting their fingernails date back some 4,000 years in Egypt, as is evidenced by pictures in ancient monuments and by mummies.

No Log Cabins

Although most American illustrations picture them in log cabins, the late Harold R. Shurtleff, in the Log Cabin Myth, published by Harvard University Press, states that there were no log cabins in early New England or Virginia. They built frame houses.

Perfect Temperature

Colossal cave, near Benson, Ariz., has been explored for 22 miles. It is without moisture and the temperature remains at 72 degrees the year around.

HERE ARE AIR RAID ORDERS

CLIP THIS

To Every Citizen:

The Civilian Defense Council says to you that your life, the lives of others, may depend upon swift obedience to these instructions: Cut this out. Save it.

In event of an air raid alarm, the first signal you will hear will be three short siren blasts, then a pause of one minute, and three more short blasts. This is the moment of the blackout!

The "all clear" signal will be one long (one minute duration) blast.

This means that the raid is over.

If you are at home when the alarm sounds, stay there. Extinguish all lights. Wait calmly and patiently for the "all clear" signal.

Your house or apartment is the safest place to be.

If the alarm catches you in the street, find a suitable shelter away from flying glass.

If you are in your car, pull to the curb and extinguish lights.

In event of an actual bombing, abandon your car for a shelter.

Above all, keep cool. The enemy wants you to run into the streets, create a mob, start a panic. Don't do it.

Equip your house with bags of dry sand. Keep the garden hose attached. Fill the bathtub, other receptacles, with water at night.

Attack incendiary bombs with sand, a spray from the garden hose (but never a splash or stream!) or a spray from the kind of extinguisher you turn upside down. Splash water on an incendiary and it will explode. Spray it and it will go out in two minutes.

Never leave your house, day or night, without first making sure that all lights are out.

Above all, keep cool.

LET'S HOPE
that incendiary bombs never fall here

BUT
the Civilian Defense Council advises to be prepared with sand to extinguish such bombs if they do fall.

WE FEATURE
immediate delivery of clean, dry sand at only 40 cents per sack.

MAKE SURE YOUR CAR IS

- **MOTOR.** A simple check-up costs very little and can save you plenty later on!
- **LIGHTS.** Damp weather affects faulty wiring easily. Have lights and wiring checked now!
- **TIRES.** Good brakes won't stop your car on wet roads. Better check the tread on your tires!

SAFE!

A breakdown miles from nowhere isn't a pleasant experience. But a lot of motorists are in for just such trouble because they failed to check their cars. Don't you be one of them!
